

EDWARD

What was his lab like?

JANE

It was kind of sterile, but he always had people in it who were busy.

EDWARD

What were they busy with?

JANE

They were busy, um...

EDWARD

Were they taking blood?

JANE

Yes, or serum.

EDWARD

What would you do?

JANE

I would come and have my blood or serum taken. I was like a patient. They would treat me like a patient.

EDWARD

Did you like that?

JANE

Not particularly. But that was the way Pop Pop was to everybody. He was a kind of cold man. He was a nice man, but that was his personality.

EDWARD

What did he think about your becoming a psychologist?
